International Freedom
in Education Day
September the 15th

An independent group has formed, that works for Freedom in Education in different ways.

*Click and check here:
<http://jipli.free.fr/>*

September 15 is announced as the Day when various manifestations are made throughout the world, to make a stand for Freedom in Education.

Why is this group formed?

To show fellow people, officials, politicians and the media, that alternative education exists, is and should be viewed as legal, and really works, engaging both parents and children!

And that the "results" clearly show success, both academically and socially!

*More info at IFED Sweden!
Free of charge? Of course!*
